SAFE AND LASTING CHOICES ALSO FOR CLEANERS

Based on our many years of experience in the flooring industry, we have selected best professional floor cleaning products and we created

PRIMAFLOOR CLEANER®

range, specific products for industrial cleaning and maintenance of floors.

Specially formulated to remove tough dirt it settles on surfaces in general, exercising their action quickly and energetically.

Continued use ensures the floor maintains its high performance and guarantees savings in terms of cost, time and maintenance.

PRIMAFLOOR CLEANER®

DAILY®

> GENERAL CLEANING OF ALL TYPES
OF PRODUCTION DEPARTMENTS

DETERGENT FOR ORDINARY CLEANING

Performance

PrimaFloor Cleaner Daily® is a detergent and degreaser consisting of a special aqueous mixture of buffered alkalis, natural extracts with neutral pH and alcohols, specifically formulated to thoroughly clean stubborn dirt such as grease, soot and heavy grime from washable surfaces and floors safely, quickly and economically. Its special formula not only cleans all washable surfaces, but also leaves a pleasant citrus fragrance in the air. It does not require rinsing, is non-corrosive and does not damage aluminium or almost all industrial paints and plastics. However, it is advisable to check its suitability on old or worn paints. The cleaning product is economical because it can be diluted in water. IT DOES NOT REQUIRE RISK LABELLING OR ADR TRANSPORT.

Application

PrimaFloor Cleaner Daily® is particularly suitable for use in any industrial sector where safety is essential and powerful cleaning action is required. It can be used manually or with floor scrubbing and drying machines to clean all types of flooring in production areas. It quickly and easily removes marks left by forklift tyres.

How to use

For cleaning surfaces in general, use the product diluted from 5 to 10%, depending on the type of dirt to be removed. Spray on without rinsing. For cleaning floors, either with the aid of floor scrubbing machines or manually, dilute the product from 5 to 15%.

Available in 5-litre containers.

PRIMAFLOOR CLEANER®

PLUS®

> CIVIL, PUBLIC AND INDUSTRIAL ENVIRON-
MENTS, EVEN THOSE SUBJECT TO HEAVY
TRAFFIC

DETERGENT FOR EXTRAORDINARY CLEANING

Performance

PrimaFloor Cleaner Plus® has been specially formulated to remove stubborn dirt that accumulates on surfaces in general, acting quickly and vigorously. Specifically designed for cleaning resin flooring, it leaves surfaces shiny and clean.

Application

PrimaFloor Cleaner Plus® is particularly suitable for the extraordinary cleaning of resin surfaces in civil, public and industrial environments, even those subject to heavy traffic.

How to use

PrimaFloor Cleaner Plus® is recommended for use both manually and with floor scrubbing and drying machines. Use the product in a concentration of 2-5% (200-500 g of product in 10 litres of water). Spread it on the surface to be cleaned, preferably dry. Leave PRIMAFLOOR CLEANER PLUS to act for the necessary time, then rinse thoroughly with water. It is important that the product does not dry on the surfaces, and it is also essential to follow the recommended dilutions to prevent the product from damaging the surfaces. Before using the product in higher concentrations, carry out a preliminary test on a small area to ensure its suitability.

Available in 5-litre containers.
