

Data Sheet

PRIMAFLOOR CLEANER DAILY

frequent washing detergent

Features

PRIMAFLOOR CLEANER DAILY is a detergent consisting, degreaser consisting of a suitable mixture in an aqueous medium buffered alkali, natural extracts with neutral pH and alcohols, specially formulated to thoroughly clean safely, promptly and economically dirty tenacious as grease, soot and heavy sludge from washable surfaces and floors. Its particular formulation, besides cleaning all the washable surfaces, perfumes the environment with a pleasant citrus fragrance. **It does not require rinsing, it is not corrosive and does not affect aluminum and almost all industrial paints and plastics.** We recommend, however, to check the accuracy on old or worn paints. The detergent product is economical because it can be diluted in water. **DOES NOT REQUIRE RISK LABELING OR TRANSPORT ADR.**

Usage

PRIMAFLOOR CLEANER DAILY is particularly suitable in any industrial sector where it is necessary to operate with safety and where an energetic cleaning action is required. Recommended for both manual and floor-cleaning machines, to clean floors of all kinds of production departments.

Promptly and easily remove the streaks left by forklift tires.

How to use

For cleaning surfaces in general, use the product diluted from 5 to 10%, depending on the type of dirt to be removed. Apply by spray without rinsing.

For floors cleaning, both with the help of floor-cleaning and hand-drying machines, dilute the product from 5 to 15%.

Package

PRIMAFLOOR CLEANER DAILY is available in can of 5 lt.

Composition

- Buffered alkalis.
- Extracts of natural origin.
- Alcohol.

Chemical-physical characteristics

Appereance: Clear liquid

Color: Yellow

Scent: Lemon

Density at 20°C: 1,010 - 1,025 g/cm³

pH solution 1% at 20°C: 7 ± 0,5

Solubility in water at 20°C total
